

Dental Partnership

Stratose / Benefit Plan Administrators Partnership

stratose

Stratose is a market leader providing a number of solutions for managing healthcare costs. Benefit Plan Administrators has partnered with Stratose to provide cost containment for dental claims.

Through this partnership, both the member and Benefit Plan Administrators will see overall cost savings through the access of Stratose proprietary and affiliate dental PPO partners—a total of twelve different networks. This network is an overlay to your schedule of benefits so no change in plan design is required.

The Stratose network utilized by Benefit Plan Administrators includes 77,000 unique dentists (belly buttons) nationwide, and continues to grow through organic growth of the Stratose dental PPO network as well as the addition of new dental network partners.

Other Stratose Highlights:

- Average discounts obtained through Stratose are approximately 24%.
- 99.3% of claims repriced by Stratose are returned to Benefit Plan Administrators the same day
